Number of Employees

800 across all company brands

Do you require IFPS certification?

No

Do you offer internships?

Yes

What technology or markets do you focus on?

Founded in 1984, JEM Technical stands at the forefront of integrating and manufacturing fluid power systems and components, such as hydraulic valves, custom valve manifolds, and electronic control systems. With a strong track record spanning nearly four decades, we cater to original equipment manufacturers, JEM Technicals, and end-users across various industries.

Describe your company culture
