#### **Do you require IFPS certification?**

No

#### **Do you offer internships?**

No

#### **What technology or markets do you focus on?**

Hydraulic and Pneumatic Test Stands and Assembly Benches for Mobile, Industrial, Aerospace, and Oil & Gas

#### **Describe your company culture**

With over 10 years of experience, Technics Assembly & Test specializes in designing, fabricating, and programming controls for precise custom test solutions across Aerospace, Offshore, Automotive, Mobile, and various industrial applications.

We leverage cutting-edge technologies to enhance energy efficiency, electrification, digitization, automation, and data analytics, helping our customers prepare for future technologies and gain a competitive advantage.

As industry leaders in designing, fabricating, and programming hydraulic and pneumatic test stands for the fluid power sector, our mission is to revolutionize testing benches

through automation, digitization, comprehensive documentation, and advanced data analytics.
